## **Audiologist needed in Tallahassee, FL (Audiology/ENT practice)**

This position offers a great variety of diagnostics/treatment, and adults/pediatrics in a friendly and collaborative environment. There is dedicated time for ENT patients separate from own patients, and audiology support staff is available to assist AuD with consults, fittings and administrative tasks. The ideal candidate possesses great people skills and is team oriented. Our group is the largest ENT and Audiology practice in the region. We see a wide variety of patients and pathologies which keeps the professional interested, engaged, and always learning. The audiology team is forward-thinking and enjoys a collaborative working environment with ENT and other professionals. If you are looking for an opportunity with an organization that values mutual respect and team atmosphere, send your application materials to [ELackinger@tallyent.com](mailto:ELackinger@tallyent.com)

### **Responsibilities:**

- Conduct basic audiologic test battery for adults and pediatrics as well as patient counseling and education
- Perform and interpret specialized diagnostic testing including ABR (mostly newborn/some adult), VNG and VEMP. Some ABRs in OR.
- BPPV treatment
- Conduct hearing aid consultation, dispense and fit amplification (no 3PAs) and follow-up care
- Ponto and Osia providers
- Follow best practices for dispensing including real ear verification and electroacoustic analysis of hearing aids
- Aural Rehabilitation classes provided to patients
- There are many speaking and engagement opportunities in the community if that is something that interests the applicant

### **Requirements:**

Au.D. - new and experienced candidates encouraged to apply

### **Salary and Benefits:**

Benefits package including commission structure, health insurance, dental and AFLAC options, 401k and PTO
